This collage consists of 30 individual photographs capturing various moments from a school trip to Schongiland. The images are arranged in a dense, overlapping grid. Key elements include:
 

- Rides and Attractions:** Several photos show students on different rides, including a roller coaster with a dinosaur-themed car (labeled 'Dino-Track'), a slide with a yellow and red car, and a go-kart track where students are driving their own vehicles.
- Portraits and Poses:** There are several close-up portraits of students, some making 'V' signs (peace signs) or other gestures. A group of students is also seen posing together in a building.
- Signage and Environment:** The 'Schongiland' logo is visible on a slide car and a sign. A large cartoon dinosaur head is part of the roller coaster's structure. The background shows a typical amusement park setting with trees and other rides.
- Students:** The photos feature a diverse group of students, mostly teenagers, dressed in casual attire like jackets, hoodies, and caps.
